Victoria's Secrets...

Inchwrap and Algimud from Finders Professional

Spotted last week sporting the latest designer biker jacket and trim jeans, **Victoria Beckham** struck a stylish, slim line pose a million miles away from the majority of post-pregnant mums trying to shift those excess pounds. For all the fruit and veg in the world, we have discovered that the ultimate secret weapon for speedy slimming is her new love of **Finders Professional Dead Sea Spa products and treatments** from the spa specialist.

The former Spice Girl has been treating herself to **Finders Professional Inchwrap and Algimud body treatments** in Madrid. These treatments contain a unique combination of natural earth-given ingredients such as Dead Sea Mud and minerals, plant extracts, and seaweed, which have powerful effects on the shape and tone of the body contours.
